

Cognitive Strategy Class #1 (Friday, October 21, 2011)

The Divine Angel Joyelle says, The White Light today will be very, very powerful and you will feel very, very tired.

There's lots and lots of Inner Beingnesses (IB's) and we are working on Defense Strategies tonight, and we will describe the strategies.

We have installed the Network for all IB's, and all IB's are now connected to the Network. We have also connected lines to all the planets in the Universe, and we are all linked together with the Divine Realm. They are showing an image of the Divine Realm and everything else is like satellites with communication lines. Joyelle says, It is not like lines of telephones, but of energy.

The Red Planet will be the first to come to meet Darkness – it will be our decoy. They will lead Darkness to parts of the Earth Plane that has the least population and We will keep Darkness at bay. And more people from the other planets will come. Joyelle says, We will bring Darkness to the place of least population, and here we will contain it. And We will begin by cutting the lines to Darkness. Then We will start to transmute it. The Eye of Darkness will know this, and it will send masses of Darkness forward. And the people of the Green Planet will lead this Darkness into the Universe. In the Universe, all special IB's and Star people will confront this Darkness, and we will have a very special 'Trojan Horse' for the Eye of Darkness.

They are showing images of the fleet – I am not sure if it is the one led into less populated areas or out into the Universe. Joyelle says, we want her to see how huge it is, and there's many, many types of Darknesses. They are showing me this very, very long fleet in space, and it goes so long – as far as the eye can see. They are waiting. They are showing me the artillery – these airplane types can do all the different functions of the 7 different forms.

Joyelle says, we want you to look beyond the airplanes, to see what else has been devised. There is big, big Darkness in the background. It is like a big cloud. It is very, very dark. Are there many of them, or is it one big thing? Joyelle says, It's many, many of them. They feel like clouds. There's a wispieness to part of them – generally lighter ones are more powerful? Joyelle says, They are very, very potent. When they are lighter, they are more powerful because they can penetrate the human mind. They can make you do things that your True nature would not do. The sense I get when one looks almost too closely – it's very ominous. Joyelle agrees. And other forms are in this armada. Are all these new forms? Joyelle says, New and improved.

They're showing me an image of the next form they want us to examine. It is hard to describe. Joyelle says, It is a shadow in the shape of a monster. It is an odd-looking thing. They are showing an image in the shape of a monster from a distance upon a bunch of people, hundreds of people. They're showing a crowd of people. It's so strong they sense it. They look up. They cannot see it, but the people can sense this. Joyelle says, Yes, very much so. This is new. Generally, humans aren't able to pick them up – they might feel a headache for example. Joyelle says, It's also new because they can use it on a group of people. So is part of their strategy to incur fear? Joyelle says, Yes, their presence is so strong they can pick it up – to actually control people through this fear. Joyelle says, Fear is created from the ego, and fear is part of Darkness. When people lose faith in the Divine, they turn to Darkness because of fear.

Setting Darkness Free

We've said previously in other classes that IB's in this Non-Form Reality are able very easily to combat Darkness because their IB's operate at a much higher frequency than Darkness because it has a much lower frequency. So it's easy for them because they see Darkness in this Non-Form Reality. For Outer Consciousness (OC) is to follow in their hearts, to follow their IB. And to know that IB is being taught what to do with Darkness, or knows what to do with Darkness. All IB who come to these classes, all classes – these classes, Defense classes, Energy classes. Joyelle says, We recommend that the IB's are very, very powerful now, and they know how to dismantle Darkness. As Darkness is dismantled, it will be transmuted by Love, and Love will set Darkness free.

Jon's IB speaks –

I am seeing Jon's IB. He's actually a very powerful IB. Joyelle says, He's actually very, very powerful, talk with him. He's here, and he's showing me something from far away. Joyelle says to follow him. He's showing me a birds-eye view of where we are, of the Divine Realm and the satellites of all that will be involved in the battle. He's showing me a picture of how they're splitting up the armada. The armada will be split into three. Part of the armada will be drawn into the universe. I see the 3 trails.

There's also a special contingent of beings that will go to the Eye of Darkness. They're showing energy lines running away from the Eye of Darkness and there's special significance from main power lines coming off of Darkness to its armada. The main significance is that these power lines do not return to Darkness. Joyelle said, Look at the lines from the Divine Realm – they come, but also return. These are one-way power lines. Jon's IB says, Part of the weakness of Darkness is that Darkness has staked itself in these one-way power lines. And they will be a major target, because they are easier to dismantle in this way.

Jon's IB continues speaking...

When the armada starts its advance, it will be very, very important to split the armada up. It must be done because it is so massive. We're in a roomful of powerful, powerful IB's. All these IB's that have been trained in Darkness – they're like experts. They're so powerful feeling – I can feel their energy. It's me being in awe as OC.

The strategy of diversion is very important in its timing. It is like certain things must happen at this stage, this stage – It has to work like clockwork. And these IB's that are trained in working with Darkness, including those of us in the room here, your IB will be instrumental in ensuring this Dark armada and its where they're being led to, and these 3 streams, is absolutely essential. And when those that go to the Eye of Darkness, they will be strategically working to cut off those main power lines and it's also a diversionary thing so that Darkness doesn't know what's taking place. He's saying that the Red and Green Planets have been ready for some time now. They say that they've been waiting for the humans to organize. In a very short time, this armada of Darkness will begin its forward movement. They will get the go ahead soon, and that will set off a sequence, a chain of events that Joyelle says will hold the future for mankind.

Doug's IB Speaks – Critical Stage of Evolution for Mankind

He's talking about this time as a critical stage of evolution for mankind. There's the brightness of the future, and the bleakness of the past leaving, of being *in* the past. But many things could transpire in between. They are showing also how the IB's here have been preparing for some time, even if OC wasn't aware of their role. These groups of IB's will have different activities to perform. They almost look like they're in training mode, perfecting mode, refining mode. Joyelle says, It is like final instructions.

Jon's IB Speaks – Outer Consciousness Has Been Asleep to Its True Nature

So we're back to Jon's IB, showing all the satellites, planets, and stars, and how really ready they are. Joyelle says, they are all very, very prepared. You can feel how connected they all are to this Plan. Joyelle says, The humans were last to come on board. Jon's IB is saying that because the Earth Plane is the most affected now, that is part of the reason for the delay in taking so long to organize – because of the impact that Darkness had on us. He says, Do not worry, the commitment is there – we just had to see our way through. The Divine resides in all humans, like all special beings who are present on the Earth Plane today. They are here for a reason. All will come together. It's almost like he's saying the cognitive side of humans was last to know, and that's what they were waiting to come through.

Joyelle says, The Divine will be with all humans during this battle – do not have fear. Jon's IB adds, this is the time for human consciousness to be more aware, to awaken, and for the people to know that they are of the Divine. Joyelle says, Time for human

consciousness to be awake, and for people to know that they are of the Divine. Jon's IB is saying that it is time for OC to awaken – it has been asleep to its True Nature.

Unrest is a Prelude to Change

Why are they showing a picture of all the people lining up? Joyelle says, they are lining up to become awakened. Jon's IB is saying there's actually a process for awakening to take place, and this process has been accelerated. It almost feels like there's a spark inside people that's driving this momentum, propelling the momentum of awakening. Joyelle says, Yes, it is what you would call instinct. This instinct is from our Divine nature. Joyelle says, Look at the unrest in the people around the globe – that's part of what you're seeing.

Turning Towards the Divine Will Mark a Turning Point in Human Development

There's more to this – they're showing the people an how there's a flash of light. Joyelle says, This flash of light in their heart is igniting this instinct. This unrest is a prelude to change. It looks like the people are in a daze and suddenly waking up – their eyes are opening – that's the feel of this grouping of people, that represents many, many on the Earth Plane. It's going to spread, he says, It's going to peak. Joyelle agrees, It will spread around the Earth Plane and peak. The focus is still on the people – their eyes are looking towards the Divine. Joyelle says, And will turn to the Divine. This turning towards the Divine will mark a turning point in human development. Jon's IB bowed and left.

Darkness is the Cause of Duality – Debating The Future of Outer Consciousness

They are showing the sounds of all IB talking. They are debating. It is like a healthy debate about the humans. Joyelle says, They're debating about the role of OC to have in the future. Part of the discussion is the wisdom of OC be able to separate so far from their Divine nature. Joyelle says, So that Divine nature and OC are aligned. Part of this discussion is predicated on where we came from, the need for this drawing closer to their Divine Self because of the infiltration of Darkness. Joyelle says, And Darkness separates the two. And it *is* the cause of duality. It feels like a discussion that will help set the future. Joyelle says, Yes, very much so. She adds, Divine Wisdom and Knowledge is what is having this discussion.

After the Battle – the Union of the Galaxies

It is like a roomful of many dialogues is happening all at once. In amongst this big crowd of IB's discussing – in behind is the Divine Himself hearing it all. Is he doing more than seeking or receiving their input? Joyelle says, Much more, He is opening up the Universal Mind to them. The Universal Mind is the All Knowingness of the Universe. It is like an amazing place where IB, the Universal Mind all interact together, are incorporated together to create a pathway for the future. Joyelle says,

Yes, to plan the future. I guess the future will change now that the battle will have taken place. Joyelle says, And the roles and the connections made will have changed. That is where they are talking about the fraternity, the Union of the Galaxies. Joyelle, Yes, new beginnings.

The satellites shown before are now seen as satellites differently in terms of cooperation and understanding. Jon's IB says, The Dismantling of Darkness will change much, will allow much to take place, move forward. Joyelle says – Become Pristine.

Joyelle says, We want to thank you for all participating in this class. You will all be very tired. They're still talking. Joyelle says, It will continue for some time.

We concluded the class with words of gratitude to the Divine.
