

Cognitive Strategy Class #3 – November 4, 2011

We are starting now...

They're raining a different White Light on people.

Joyelle says, White Light will open you to this experience. Are we travelling today?

Joyelle says, Yes, the difference is that it will be very, very needed to journey.

### **Journey to the Red, Green, and Brown Planets**

It feels like we are flying overhead some cities. I feel much lights. Jonathan's IB is showing us the Red Planet. Joyelle says, Look at the beings - they are prepared.

They're all ready to go in an instant. So this is like a final check? Joyelle says, Yes.

We're flying off to the Green Planet. We're above the Green Planet. They're showing it from far, far up. It is Green and White. We're not going in - Jon's IB says they'll know. He's pointing out something else about their readiness. Joyelle says they're not only ready for the battle, but to be a decoy.

Now we're going to the Brown Planet. The atmosphere is different here. Joyelle says, They have stations above the planet. Is this planet like this all the time? Joyelle says, For the battle. So this is the direction that Darkness will be coming - from the Red to the Green, to the Brown Planet. Joyelle says, They will be led here. There's something about the passageway. They put me inside the passageway which will be the route that they are being herded to. It feels like when you're inside this this passageway, it makes you feel lost. Joyelle says, Confused. It feels like the beings from the other planets are going to come out when they're on this route and they're going to surprise them. It almost feels like an ambush. Joyelle says, It is an ambush in a humane way. It is not to destroy Darkness, but to transmute it. When Darkness is in this passageway, the beings rush in, and it feels like they're disabling them. Joyelle says, They're dismantling them, and then Love comes.

### **Raising the Vibration of Darkness**

Some people were taken aback by this word "battle," where some people think that you can't battle in love. Joyelle says, This is not the battle that you think of on the Earth Plane, where people are killed and the planet destroyed. This battle is one of Love. This battle will be done with Love at the helm. We will dismantle Darkness so that Love may transmute it. This is not a termination of Darkness, but a raising of vibration of Darkness. In this way, Darkness will be able to fulfill its desire to be loved. 1345

### **Meet the Beings That Will Turn On the Light**

Joyelle says, It's a new being to come to talk to you – welcome it. Tell her she will be safe to share her message. Pearl says, You are safe here, please feel welcome to share your knowledge. She pulls something out. Joyelle says, She will read it to you.

Dear Earthlings,

The battle with Darkness is commencing, and we are with you. She has important knowledge about Darkness that she wants to share with us. She is pulling some documents about Darkness. Joyelle says, It's their inner desires. She says that Darkness wants to be loved, first and foremost like all beings. They're missing this capacity. Transmutation will help them to do this, whereas before, their make-up only allowed them to destroy. When Love transmutes Darkness, there's a light so that will open it to the capacity of being loved. Joyelle says, this light is like being turned on. This is a gift from the Divine. This has been devised by Aldeene's IB so that they have this opportunity to grow. They're showing what Darkness turns into – whereas before it's like this dense black thing, now it's kind of like grayish, flowing things. Joyelle says, Feel this. They're peaceful, they have an added intelligence – Joyelle says, it is a knowingness of the Divine. And this knowingness will allow them to seek the Divine.

The new Darkness feels young, curious. Joyelle says, Brand new. And it looks like they don't mix with the previous form of Darkness. Joyelle says, We will teach them. She says, they (Darkness) are ready for this, they just couldn't help themselves. She says Darkness will be happier in this state. She says at first, the Eye of Darkness will be mad. But as it is transmuted, it will change. She says the eye of Darkness is very big. Joyelle says, It is huge. But as it changes over a millennia, it will fall into the same consciousness. She wants to talk more about this light, this knowingness – this light will get brighter, give them an opportunity to evolve. It's like they have an opportunity to evolve out of themselves.

### **All Eyes Are Upon the Earth Plane**

It's like all eyes are on us, on what is taking place, on this battle. She says we are interested observers of this battle. Joyelle says, Not in battle. They are showing many other eyes around the Universe watching. She says, many other beings want to emulate the Divine, the Divine's way of Being and some aspects are of interest to these other people, like His Way of Being. The Way of the Divine is very powerful, because it's very inclusive, yet allowing of freedom, of free will. She's pointing out still the other eyes of the Universe that are watching. I feel that some of those are watching us – like even now. Joyelle says, Yes, very much so.

She's showing us some of the interested observers – the places first, and how far the interest spans. See the planets of people and their planet groupings - Joyelle says, It will resonate throughout the Universe.

She's very kind. She's telling me that they could not participate in this battle. Joyelle says, Because the Divine would not permit them to become trained to fight Darkness, because they are not allowed to be trained. It almost feels like they are too gentle.

So you see, she is saying, the Divine has a greater plan, that goes much beyond the battle, that goes beyond even those participating. It's like she's flying. She's wavy and flowing, and she has hair, and she moves with a giggle. She's beckoning. We are all going. She's taking us to her home planet.

### **The Place Where Darkness Will Be Helped to Grow**

Their planet is very light. It sparkles – as we enter the atmosphere, you feel sparkle things. We're descending. Joyelle says, Those sparkle things are cleansing you. Everything feels like – you could just lay in the air, feel carefree, and just float. It is very busy here – it feels like they're preparing for something. Joyelle says, It's full of life. They are preparing for the battle in a different way. They are preparing by having the New Darkness come to learn from them. We asked about the tent-like things. Joyelle says, They will be kept here until they mature. They are showing me a form of Darkness that feels innocent, and it feels like its an infant. Joyelle says, Yes, it's young. So that's the sense of nursing them. We asked how long they take to mature. Joyelle says, it will take them about 100 years to mature.

She says, They will live amongst us, and we will teach them. And then they're showing me the next planet that they can go to learn from. Their planet is grey and red. It's very pretty. You see them (Darkness) in amongst the society, and they float amongst them. They feel exceptionally nurturing. They care differently – is this a different kind of Love also. Joyelle says, Unconditional love. It feels very accepting, yet it doesn't feel like human love. It feels warm, but at a distance. Is it the same as the Divine's Love? Joyelle says, It's not the same Love, but close. It feels like a different frequency of Love.

So, there's the sense that if we all work together, the beings can evolve together – many planets, the stars, very, very inclusive. And she's showing me how others from far, far away, would be welcome to this set-up. And she's talking about, even warring planets can be taught differently. She says, This is a major undertaking for their people, but they feel very welcoming of this. Joyelle says, It is an opportunity for them to also grow. And then from a distance, you can see the people from the next planet, the red grey. I can see eyes looking...Joyelle, At you. They feel wise. Joyelle says, Wise with great wisdom. The being from the planet feels old, wise, slow, patient. He says, We will come visit you. And there are others...

Knowledge being learned by IB's in the Cognitive Strategy classes will be made available for all IB at the appropriate time. For the most part, most IB are here to help with plans on the Earth Plane.

We asked Joyelle to explain something said earlier about Darkness not wanting Love, that it only wants to control. Joyelle said, Darkness does not want to have Love come to it as it is now – it does want to control. But look at it this way – it is like a person who is angry but just wants to be loved.

**Questions and Answers:**

Are the new forms of Darkness still connected to the eye?

Joyelle: Not at all...by the Universe.

Pearl says: it feels like they're under the care of everyone.

Joyelle: Yes

The class was concluded with words of gratitude to the Divine.
