

Defense Class #3 – October 01, 2011

The Inner Beingnesses (IB's) are all huddled together and they are very excited. They are talking about the different experiences they've been having with Darkness and sharing knowledge in how they are working with, and what they do with Darkness. They are talking about the different forms of Darkness. They're sharing an image with me. They're talking about a cloud form of Darkness.

Dismantling Cloud-Like Forms of Darkness

This is Marcel's IB explaining about a cloud form of Darkness. It looks like a big cloud that's sent, angled down from the sky at a person. And he is talking about it. He says it is very, very strong. It made Marcel feel ill and nauseous. And then he's saying that when the Divine came and removed it, they did something up the center line of the cloud. They're showing how to disperse it from the middle outward. So that's the technique against this form or how they would disperse it. We asked, What is the black thing inside the cloud? Joyelle says, It is like the brains of it. They are still showing its brain, the dark line inside the cloud. At the same time they were dispersing the cloud part of its body, they are also working on its brain. He is saying that they are dispersing the cloud energetically from the inside first. Joyelle says, Not using the Rope of Defense, but with energy.

We asked if the brain line was attached to the line from Darkness? Joyelle says, Yes. This feels like the stem function of the brain that they are focusing in on. And that is where they disable the stem? Joyelle says, Yes. We are talking about the base of the brain of the cloud. It feels like they isolated it in some way. Joyelle says, Yes, they cut it off from the Darkness line. And they show where the stump is. And that, in effect seems to disengage it from the rest of its body. They are actually pulling out this long brain. And you can see that it renders the body – it doesn't do much then. Joyelle says, Not at all. And the brain part that they are pulling out – it will be transmuted. You can feel the life draining out of its body. And Marcel's IB says that without the brain it has nowhere to direct its energy to complete the function of the body. Joyelle confirms. As he tells this story, the IB's cheer.

Another IB is talking about a low lying cloud form that kind of comes and feels like pressure on the head. She says that is very similar. There is a brain inside that cloud and it feels like they disembowel whatever they remove. Just like the other one. But they are showing me that the brain actually extends into the body a little bit differently from this cloud form. Joyelle say, Yes, there is more of a network into the cloud. And then IB's did a humming thing, where they shared information, but not with words. Joyelle says, do not look at this like a person or an animal, look at this as reorganizing energy.

Darkness Bats

They are showing a white bat. Joyelle confirms that it's a white bat, and this is where they focus on the extremities. Joyelle says, Yes, at the feet. And they show the feet, the underbelly, and the wing tips. And IB says, bats are very nasty, because they talk to you and make you think like you are thinking these thoughts or they make you do things. And he is telling Outer Consciousness (OC) to be careful, to not listen to thoughts that are not your own. He is telling OC, warning them, warning us that it's like coming in from an alternate channel. So if you pay attention, it's like, Huh, where is that coming from? That isn't usually from the sphere of one's self. And they usually say something negative about somebody or even yourself. So it is very mean. IB goes into a humm and everyone knows. Another IB says, We're learning how to know differently.

Darkness – Points of Interest

They are helping a person's IB. There is a kind of Darkness that comes in and does something in such a way that IB can't move, and they are helping with this form. Joyelle says, Sometimes Darkness goes to an IB that is not yet fully actualized, and this will immobilize the IB. The Divine will remove this Darkness and tonight other IBs are learning how to do this.

The Divine teaches with enormous patience – I can see them letting IB's try and figure it out. They are trying many different things. I can hear them talking, trying to use the Rope of Defense at its feet. A more actualized Divine IB is coming. Joyelle says, Yes, to show them what to do. The feet are vulnerable, but on the bottoms. So they need to tip it. They need to combine, they are doing something energetically to tip it. They are just so eager. I can see this IB studying it.

Another form of Darkness is shown – it feels like a stone weight. A very different body, a very different form. This form of Darkness is shivering, and the IB who came to show them what to do, is saying, You cannot show mercy to them. It is in Truth, so it is not a mean thing. They would show none to you. So IB's nature – they're kind and loving, innocent. And one IB says to me, But we're not naïve; we're learning.

Pearl's Inner Beingness Speaks – Being Responsible for Your Home – the Earth Plane

Pearl's IB is showing IB's how to wield the Rope of Defense with authority. She is talking about their inner demeanor and how to be when you are with Darkness. It's something about the task of this work and doing it, completing it, because there is much work to be done, and then moving on. She feels a bit like a task master.

One of the IB says, Because time is short, we have to make the most of our time. Like the learning time together too. There is more different talk. She is not talking with words right now. The same way that I'm experiencing my IB, you can do the same.

Mainly pay attention to what is coming through. And then follow them. I know you have busy lives. But this is very, very important right now. It is like reclaiming the Earth Plane for our own as it was and always should be. There is just this constant, “There is no time but now. “ And IB’s and OC are being asked to **take responsibility for their home**. So to not look at it like we are doing something outside of ourselves for somebody else. This is for the “We” together. So it’s important to come from that place of knowing, that place of true responsibility for what we must do. And that we get to love this task of bringing the Earth Plane back into Divine hands.

Because the Divine cares about All, this is a way to incorporate All. To bring everyone together in Truth, to reclaim the Earth Plane, re-take the Earth Plane. And she is saying that you all have equal roles. Even though some have different responsibilities they are like equal roles. The way that they (the Divine) work together in cooperation, coordination isn’t like what we do. They have understood roles that some do more or take on different roles. Joyelle says, There is no judgment. That is why everyone gets to play a role and all IB’s want this. And that is why they need OC to follow with tremendous faith and steadfast, to do this with sureness in the heart. To let the Divine come through with love, courage, honor, grace, deep knowingness, of what we are doing in Truth together.

She is talking about the love flowing through us and how powerful that is and how that will connect , bring arms together across the Earth Plane. The love for the Divine creation of the Earth Plane and for one another, that will save this place, our home. It is like the power of love helping to raise consciousness – elevating the use of love beyond what we would normally understand love to be amongst ourselves. Using that love to propel us forward to retake the Earth Plane. And that love is such an essential component of all that we are doing. It links us in a magical way. And as much as the Earth Plane is of energy, there is much love in its make-up and this love for one another is like a key ingredient to everything and to all that is being done. Deep, deep, love, care and concern for the Divine’s creation, for the Earth Plane, Mother Earth, for all that we know and for those we love, for each other. So much love.

And then we come to the Karma clearing event. So understand that this event is a very, very special offering from the Divine. It is also an offering of the gift of love from the Divine – firstly to his children, to humans, so that we can work together in love. So this opportunity of love is so we could extend a hand of love to others. So when we create these lists of people that we would like the Divine to help diminish, or clear Karma for, that that too is done in the making of arms of love.

Extending this love from the Divine to the ones we list that are close to us, that we care deeply about, thinking beyond ourselves to help others and that networking and spreading out of love, will make a difference. So everything that we’ve been doing is a trail being built of everything of love. It’s all about love, care, concern, compassion for

the Earth Plane, for all others. All creatures and Mother Earth.

She's asking everyone of you to reach deep in your heart to remember those from even childhood to bring them into your heart, to help those who you were touched by when you were young as you grew up, to make this love, care and concern for others be very broad. For this list will then become the foundation for the clearing of country karma. So she's asking you to dig deep, to know that this is very important, to do your very best, to let your IB's suggestions come through so that you remember those you love, and those who need your care and compassion now. To think beyond oneself, to let love spread in this beautiful, Divine way.

All is love and compassion and they show a picture of what the Earth Plane could be. This is a picture of the future, of what it could be. And it looks like a satellite of the Divine realm. And that's where we'll go. So she's saying, know this beyond yourselves. You have everything within you to do so. The Divine has gifted you with the Divine within, and for you to realize your True nature. It's like coming into your own, your own understanding of your True nature, your own understanding of your growth and purpose here, and of how you truly belong here.

This is not the home for Darkness – this is *Your Home*. So see it in this way. This is an extraordinary time to work together in this fashion. See it as a privilege and honor, to do this, to come into yourselves in this way, to an understanding, to love and have compassion for all Divine creation including yourselves. Remember this love and let it extend far. This power of love is something that Darkness could never understand. Others in the Universe are coming to the Divine to learn of this Love nature, this depth of love.

At some level, we are the envy of other people, other beings from other stars, star systems and planets. That is what you are fighting for. See it from their eyes and how great this place could be – there is that much at stake. By being here, we don't see what the other beings do, so we take much for granted. Now is the time to come back home in this way, to show our deep appreciation and love for what was given to us, for what we truly are. For the extraordinary beauty of this place. See it as your home. Love your home this much. Love the beauty of his creations this much. There's more work to be done. Even after the battle, that will come. Much to follow through on. The Divine will instruct you.

The Sound of True Defiance

Before Pearl's IB left, that sound that she made – what does that do? I used to hear Aldeene's IB do this all the time – it is very powerful. It is like the ego would mistake it for anger, but it's not anger, it's True defiance. A True defiance against all that is Untrue, against all Darkness. It's like a scream of defiance. Joyelle says, Yes. It's like a beautiful sound, and if I were Darkness I would run from it. Because it's so strong –

it leaves no doubt whatsoever. She must be learning this from your IB, Aldeene.

I can picture it and hear it but I can't show you the sound. I think if you were to see something wrong or Untrue taking place, or someone getting picked on from far away, and in an instant you shout, it's with that kind of energy. Like if you were to say "Hey!" It's not a "Hey" sound, but that's the energy that comes out. It's like everything Untrue stops at the sound of that. It's just the sound of anything that would strike fear in the hearts of anything that would dare stand in the way of the Divine.

Defense Class Continues

So IB now comes out and says, Hey look what we can do. And they are trying something with the Rope of Defense, and it feels stronger or longer. The Rope of Defense is glowing differently now – I can feel its strength. So as they learn, the extension of their ability comes through. Not only their capacity, but the capacity is also part of what they're doing with the Rope of Defense itself. The Rope of Defense is going out like a whip and its end goes out and it's shaking. The Rope does something when it does that. It disperses differently – many uses to the Rope. They're showing the Rope and how it vibrates in space. They try and explain. It's different from the tip of the Rope of Defense hitting Darkness or dispersing it. So as the rope moves, even a slight vibration, there's something different than if it were to undulate high and low for example. That's very energy specific. Now he's demonstrating it by flicking it at my nose. It actually kind of tickles. And there's something else about the Rope of Defense. As I'm watching it come close to my nose, it actually commands the energy to move away in a certain way. Joyelle agrees.

That is another form of Darkness, different, that they've boxed in. I can only see part of this form's body. Joyelle says, this one is very nasty – we will not show you all of it. All IB's are using energy to dissolve it. But they're staying away a little bit, at a distance? Joyelle says, Yes. As it's being dispersed, I can see it shaking. They're just showing me the lower part of it, but I can see it shaking a bit as it knows its end is near. Joyelle says, One more Darkness. We have not seen this one before.

We closed the class with words of gratitude to the Divine.
