

Energy Strategy Class #1 (October 23, 2011)

We are raining White Light on people to open them to this experience.

I hear a commotion. Joyelle says, It's a big, big commotion. It's Inner Beingnesses (IB's) talking about what they know about what to do with Darkness.

There's a crowd of IB's. Joyelle says, Many, many. It has the feel of people altogether, cheering, very, very happy. It's a very, very bright, White-Light setting. Joyelle says, It's like a festive mood. They are celebrating the new beginning of these classes. They will show you new energy strategies that they have devised. It looks like they are playing catch with energy, but the energy is different in color. The quality of the energy itself is different. Joyelle says, It's different in color and types of energy. IB says look at what we're doing with the energy. There's a potency to this energy that's different. It feels really, really powerful. You almost don't want to get close to it, it feels that strong.

This energy will protect certain areas of the Earth Plane when the battle starts, areas which are very high in human population. This energy Darkness cannot penetrate. When this energy is laid down, anywhere this layer of energy is, would intercept Darkness. One type is *on* the Earth Plane. The one that is far away will direct Darkness to certain other areas. It will create passageways, and Darkness will not understand that they are being led. They are showing it in a light blue color. So if Darkness were to approach this energy field, it would not want to come in this direction – it would be directed elsewhere. It would choose to go elsewhere, unbeknownst to them.

IB Create Energy Defenses

IB says, We've been preparing, and devising, and planning for some time now. We've been working very hard for the arrival of Darkness. We know they are coming soon, and we are on the Divine Network for IB's and we receive a lot of information, so we've been preparing very hard. We have many other things to show you. They are showing this big line of energy. They will use this to scatter Darkness upon arrival to the Earth Plane. This is kind of like the first salvo. Joyelle agrees. IB says, Darkness won't know what hit them. Joyelle says, They'll be stunned, but they are going to do this very strategically. Joyelle says, The timing is critical. IB says, We will be doing this en masse. That's why it's so powerful.

They're showing a group of IB's and how they're sending the energy together from the IB's. We have organized ourselves in groups. It's like they have been practicing the precision of how they will send energy. Joyelle says, This group energy creates these lightening rods. IB says, See how the trajectory lands here or there – we are that

precise, we are at a distance. Joyelle says, Great distance or small distance does not matter. IB says, First and foremost, we need to protect the Earth Plane, because many on the Earth Plane will be unaware. Even if IB are unaware, they're showing massive criss crossing energy to keep Darkness heading in a certain direction, controlling where they go. And because energy is coming in from different angles too, but in the same area, this will startle them.

The Nature of Darkness

IB says, They are not very thoughtful. They don't reason like us. It's like they're making them panicky. IB says, Darkness thinks that they can be strong only in numbers. And they do not care for one another so they won't help each other find their way. That makes them very easy to herd. We understand the nature of Darkness very well. They seem scary at first, but we're not scared of them at all. Even the strongest forms of Darkness – we have strategies for them too.

First the battle, then they'll look more indepth at how to take care of the Darkness on the Earth Plane. Joyelle says, They must stop Darkness first, so that no more Darkness can be sent. Then we will help restore the Earth Plane to its True Nature. IB says, Darkness thinks it can simply inundate the Earth Plane with forms of Darkness. That is very simplistic in thinking. It thinks it can simply overwhelm the inhabitants of the Earth Plane, not realizing that that is like a weakness. Their in-between strategies are also very weak. Don't get me wrong, says IB, they have also been preparing. They can see how we've been reacting to Darkness and how Darkness has been dealt with and been transmuted. So they've been fortifying their forms of Darkness. But in fortifying their forms of Darkness, they're very, very slow moving. We can corral them very, very easily.

We know them better than they know themselves in a way. We can see them. We can see how they're made, and we can see their weak points. Darkness always has a weak point, and it simply tries to outnumber using something different. Its way of thinking is more simplistic. It wants what it wants, and if it doesn't get it, just tries a different way to get what it wants. And we know this, and while it's trying to get what it wants, we will intercept them, because each form has its own weakness. We learn very quickly because we are part of the Divine. Some of us are specialists, and some of us use many different energy tactics. We are extremely organized now. We have our own leaders. We have many different groupings. We are very sophisticated, and some of us have cross-trained.

Humans do not need to worry, but it is best that they're aware of what's taking place. That's why we are talking to you about not hiding your awareness of the Battle with Darkness. That doesn't mean you go out talking with everyone about Darkness, but be present with everyone with the Knowingness about this battle with Darkness – that will

help. When you walk about with Knowingness, that Knowingness is shared with others energetically, even if you don't talk about it. True Outer Consciousness will pick this up. That's the gist of what was talked about yesterday in Defense Classes, so you in Energy Classes need to understand this as well. Do not shy away from your energetic sharing of your awareness about Darkness, about this battle with Darkness – people will pick up on this. Understand and know this, okay.

Now IB is showing me a leader far away from the Earth Plane, way up high, and they're showing one IB that coordinates the battle. Yesterday, we mentioned all IB, and all those from other planets and stars that are participating in this battle – have all been linked to the Divine. Those who are in the other classes need to understand this because it gives us much strength. It is like being all knowing at once about the battle. All IB's on the Earth Plane – understand the power of the Divine through the way we are connected. They are still showing a picture of the IB that is up high, and watching over everything. Joyelle says, Look at this leader intensely looking after all of the Battle plans. Know that all is being highly looked after.

IB says, We have more strategies to show you. They have planted Pearl inside the energy they'll use to direct Darkness away. I am inside, and it feels like I'm being electrified. IB says, See how unpleasant that is – that will fry your molecules. He says, It's very, very high intensity energy. Darkness will not like this at all. Darkness will not want to come close to it, and if it does – he's showing me a picture of someone who can't release their hand from an electrified fence. And then Darkness will stay away, and the others behind it.

The Cowardly Nature of Darkness

At its foundation, Darkness is cowardly. If you know where its weaknesses are, it will scatter and run. Feel its nature – the moment it is threatened, it only thinks for itself. It does not look out for the welfare of others. That is where they were taking the Earth Plane – like directing us in that selfishness to become more like Darkness. They only look out for themselves. That is a weakness, because when you are with the Divine, All is one. We are all connected – that is beyond their understanding. They do not see the strength in that because they do not look beyond oneself.

The Power of Compassion and Love

We understand the power of unifying, the power of union, the power of togetherness, the power of helping one another, the power of compassion and Love. That is where our roots are. That is why you care for one another. That is why you are evolving into this state. Darkness cannot evolve in this way. It is very singular in what it wants – it is very single-minded. It is dangerous in a way, for OC that is unaware and in ego, but our True nature is much more powerful than Darkness. The vibrational quality of Love

and Compassion is extraordinarily high – that’s what also lends us our strength and our courage. Darkness does not understand this.

So when it’s affected humans this way, it is only to make others more like themselves – they do not understand how we can trump Darkness. They just know that the Divine within was always a threat – that’s why they would always attack the heart and the head. That’s why it was so important for them to call in entities to plug the heart, so you didn’t want to go to your heart, and be with IB, to be with the Divine within. That is the simplicity of Darkness. Although, like we said, it’s dangerous for OC when in ego. But we are much, much more aware now as OC and IB’s are knowing their True nature. Despite OC’s limitations and understanding of itself, our strength of understanding of Darkness and what we’ve been training for – that strength will come through to OC in time. But we had to be the first to know this, to learn this without the limitations of OC feeding back on IB. So, it’s like they (IB’s) can (now) override the limitations of OC. We can do this en masse now, and this will be the precursor to the rise of consciousness. Everything that we know, we pass along in due course.

The Growth of Inner Beingnesses

It is always IB first, then OC. We give rise to OC, so our learning had to come first. That was the way with the tsunami, that is the way it is with the battle. When you follow the Divine, and our urging for you to participate, we got to grow. When we grew, you could grow with us. That’s why when Pearl sees us, we are very, very tall. We are as tall as the doorway now. Every time you come to class, every time you come to satsang, and do the rootball healings. The tsunami was huge, the Karma clearing was very, very huge for our growth. When you first started, Pearl saw IB about the size of your hand. We were little and we didn’t have the Knowledge yet, we were innocent and pure, but we had not been learning and training with Divine Wisdom and Knowledge in this way – all had to work together. The following of OC to the will of IB, all worked together so we could grow, and then we could receive the training as we grew.

The Importance of the Tsunami Preparation

It’s like they (IB’s) had to reach a threshold of growth in order to really learn more. IB is giving an example – you couldn’t give them grade 12 trigonometry to do, that wouldn’t make sense. We’re not children as IB, but we’re innocent and pure. But we were yet small, so we needed to grow first – that’s why the tsunami was so important. Some of you think the tsunami wasn’t going to happen. It was that close folks. It could have happened. It wasn’t far away. We averted a major catastrophe, and Darkness would have been very, very happy for it to take place. If the tsunami had taken place, many would have looked outward for answers, and in looking outward for answers, Darkness would have caught them. It would have had more ego to attach to, so it could have come en masse.

That's why it was so important to have the tsunami preparation take place. Understand it from our perspective. OC needed to follow so IB could grow. It was touch and go for a long time. We needed the numbers, and it was that close. A threshold needed to be reached about 2 weeks before the tsunami, there was a need to reach a point of following and then to maintain this. All has been working according to the Divine Plan. And you as OC need to understand this – we love you for following. We didn't want it to happen, but it could have happened. Have faith in us. Give the Divine your complete Faith, just as you are in coming to classes. Take that extra mile, and we can be that much stronger together. This is very, very important. We will succeed together.

The Energy People are Responsible for Protection of the Earth Plane

The energy people are largely responsible for protecting the Earth Plane. They are showing bands of energy encircling the Earth so they have many different ways – herding Darkness away, electrifying areas to keep them away – like secondary defenses. Then they have energy encircling the globe that keeps Darkness scattered. They are doing other things – they're separating Earth Plane Darkness by keeping them away from the newcomers. And earlier from the Energy classes, they were talking about plugging the energy lines that were floating in the sky, and IB is saying the timing will be critical on this one. We will plug these lines strategically. We continue to let some be open now so that Darkness isn't alerted. Everything has been planned exquisitely. We are keeping the perimeter of the Earth Plane very safe. There's lots of allowances in between. They are showing me a gap between the Earth – there's a big area around Earth that Darkness can't encroach.

Other Planets and Star Groupings Have a Common Interest in Being Part of the Battle - Darkness Wants to Go to Other Parts of the Universe

IB says, Know that there are other planets and stars involved in this battle. Joyelle says, The star groupings are not the same as planets. There are different planets and star groupings – they all part of the battle. So know that you are being helped in a very strategic way – all the way from the Earth Plane to these planets and star groupings. We are helping one another because we understand the strength of working together. Darkness wants to go to the other planets and star groupings. They all know this. They know what is taking place on the Earth Plane, and how Darkness has come and infiltrated the Earth Plane for a long time now. Darkness thinks that if it overruns the Earth Plane, then it can go somewhere else. That's the nature of its simplistic thinking. So the other planets and star groupings also have a stake in what is taking place. They would want our help also if the case was the other way.

Uniting with other Planets and Star Groupings

There is tremendous power in being together, and we will forge long lasting relationships with these planets and star groupings. Not only so that we can ward off Darkness, but to learn from one another. Joyelle adds, In many ways. IB emphasizes, wants us to understand, We're not alone in this battle. Some will lose their lives. So we acknowledge them – those that put themselves at risk. The Earth Plane is also a beautiful place. It is a beautiful place, and many others look towards us – they look towards the Divine and are learning from the Divine. They see us very highly. And they love the Divine for the Truth, the fairness, the Love, the compassion. Joyelle says, When the battle is over, the ties to these planets and star groupings will remain.

Questions and Answers:

Are there going to be casualties among our IB's?

Joyelle: the casualties will be among those from other planets and star groupings.

After the battle, there won't be Darkness?

Joyelle: there will be less Darkness. After the battle, the Eye of Darkness will not be able to send more Darkness. But the Earth Plane will have to be transmuted over time.

Are there other groups of people preparing like we are?

Joyelle: we recommend not other groups preparing like this.

Why not?

Joyelle: because when Aldeene and Pearl started working together, this was a way into OC. This working together was very important because ego could be quickly transmuted, and then we had the opportunity to work with you.

I've heard from other sources that Mayans are also preparing for something.

Joyelle: the Mayans have been knowing of this for a long time. Knowing of the battle and participating in this battle are two different things, and you as OC are participating.

Is Darkness related to ego or is it totally different?

Joyelle: Darkness is the ego.

I feel very drawn to be here, and at the same time, fear is still very present. Those concepts of Darkness, Love, and Conflict and Battle – they don't go together. Something feels off with that, and I physically feel ill sometimes with this.

Joyelle: the reason that you have this Love and despair is because you believe that Darkness is not supposed to be *battled with*. You believe that doing battle with

Darkness is not in Love. And you believe that Love would not battle Darkness – but Darkness is not of Divine creation. Darkness would choose to destroy all that is of Love. **We are not battling Darkness to destroy it – we are battling Darkness to transmute it to a higher energy form.** In this way, all will be at peace. All the planets, and all other star groupings and all other beings.

Comment: Martin Luther King said that Darkness can only be overcome by Light.

Are there any others in human existence who see Darkness in this way, as an energy form from the 4th Dimension?

Joyelle: Yes, 1st Buddha knew of Darkness in humans in this way. Then Jesus knew of Darkness in this way.

Krishna – would he see Darkness?

Joyelle: he sees Darkness outside of people, not layered in people.

Ascended Master El Moira wrote about Darkness and battle.

Joyelle: we recommend that this was a small battle compared to the one coming up.

Do we still continue to have layers of Darkness within ourselves.

Joyelle: when you come to satsang and class, we are removing Darkness from you. When you come to the rootball healings, we are returning True Outer Consciousness to you. So, We the Divine encourage you to do this work so that you are all prepared.

What is the role of OC in this battle? Why would OC be brought into this battle, being that most of it is Untrue?

Joyelle: OC is the part of Form Reality that must participate in this battle. Because the Earth Plane has Form Reality, we need this participation.

Was that participation more in experiencing, watching?

Joyelle: the participation is to be on their spiritual path, and to have Faith in the Divine.

Will we know when it'll be scheduled?

Joyelle: we recommend that it will take place November 26, 2011. We recommend that we want you all together. Be prepared to come for 3 hours.

Comment: There is a pervasive, shared misunderstanding about Darkness.

Joyelle: **we recommend that most teachers see Darkness as something outside of the person. They do not realize it is layered in them. They do not understand that Darkness is ego.**

Did the Karma clearing remove layers of Darkness?

Joyelle: it removed accrued debts.

What is the awakened state?

Joyelle: awakening is the beginning of the understanding of the Universal Mind.

So we are awakened to this Knowingness?

Joyelle: we recommend do not feed into your ego.

We closed the evening class with words of gratitude to the Divine.
