

Energy Strategy Class #2 – October 30, 2011

They are raining white light on people. Inner beingnesses say, we have new things to show you today. Joyelle says, And this white light is to have Divine Wisdom and Knowledge come through to Outer Consciousness (OC).

Inside the Inner Beingness' Hub

IB is leading me somewhere. IB is taking me down into – it looks like a secret passageway in the Universe somewhere, and then suddenly you take a slide into somewhere else. IB says, This is where our secret hideaway is. This is where we make our secret plans. They are showing me their headquarters. In this place there are all sorts of IB's like manning the control panel just like you would see at a battle station. There are IB's with like headphones on, and all sorts of neat gadgetries and equipment in front of them. They are very serious. Some of the IB's that are watching what is taking place turned around and looked at me with a very serious look. This is a place of serious work and overseeing.

IB says, there is many levels of oversight and they cross train up and down which is different from the way humans do – they cross train sideways mostly. They're telling me they cross train up and down in case anything happens to IB's, even if they are caught up in the battle or whatever. There's IB's ready to take over in an instant. So they are showing me the chain of command. IB is saying this is how the Divine realm works. They are showing IB upon IB upon IB, all the way to the head. And then how they share information vertically as well as laterally. But they are showing me primarily the vertical communication line and how, it's like everyone has their roles. They know what others like to do, but they also respect each other's roles up and down. But they know what's supposed to be taking place beyond their own roles, so then there's absolute clarity for what IB's are to do.

So now you're coming into this setting where you are being introduced to IB's, and in this setting there are all at these control panels or whatever you might call them. IB says, they are turning around in their chair and introducing themselves. So this IB says that I do not know him. I'm pretty sure I know the speaker, the narrator. The narrator is here. So this IB is showing me what he does, and what he's responsible for. So these are communication lines I presume that he's sending out. Joyelle – Yes, sends out information. So he's like an information gatherer and disseminator. Joyelle-Yes. And then they are showing on the Earth Plane where IB's are connected to the hub, the network of communication for IB's, and how the instant that they send information, it's received by the IB's on the Earth Plane. Joyelle – Yes, energetically received. And then he bows and steps back.

Battle Plans

The next IB they are introducing me to is IB with very big eyes. Is she sharing information, because she's blinking? Joyelle – Yes, she's sharing information with

Pearl. So one of the methods in which IB' or the Divine Realm share information or pick up knowledge, is that they send information in segments where they blink. I believe she is sending information – it's so detailed, very, very concentrated information, but I believe she is sending information about the battle. Joyelle – Yes. Am I supposed to look into that now or later? Joyelle – Yes now. The energy that is coming out with this information – this white mass, what's that? Joyelle says the white mass IS the information. So this is the sum total of all the battle plans? Joyelle- Yes, complete, everything, complete information of battle plans. So it seems like it is possible for one to travel inside this information. Joyelle – When there is no form, it is possible. She is still sending the information, and she's indicating that this information is locked inside. It is not accessible by Untruth. I feel like they're drawing me to look at some of the information.

So if information is energy as well Joyelle, and this information has intelligence, memory and feeling, does this intelligence approach when it is ready to come – I don't want to over step. Joyelle – We recommend that it is waiting for you to go into it. I feel like I've gone into like the heart of the plan. Joyelle – Yes, very much so. It almost feels like I'm in a room and it's top secret. That's how it feels; it's very, very hush hush. Do they want me to go in further? Joyelle – we recommend that you can do this later. Very fascinating, it's like walking into the center of a brain. They are setting up a metaphorical image.

We are back to the primary battle station, and you can just see information flying, it's like paperwork flying all over the place. Some of it, they are showing like paper, and I know they don't use paper so, they are eco friendly, but metaphorically that's what they are showing. It's just like it's in full operation right now. It feels like lots of information is being transferred back and forth. It's being communicated constantly, like there is a constant update, constant communication and sharing of communication. They are also showing me how that translates out on the Earth Plane, how that information is getting worked down into the IB's on the Earth Plane.

Activating the Network for Outer Consciousness

They are also showing how inside this secret place, how there is this golden line that goes straight down into the Earth Plane. And then they are showing this gold rim around the Earth Plane, so I'm not sure what that is supposed to be. It feels like the Divine lines of communication, like they intersect with this secret battle station and then there's a dissemination down to the Earth Plane. And then there's that golden rim. Joyelle – we recommend that this golden ring is the golden form of communication. So it's like it's active, that's what they are showing. Joyelle – Yes.

Now they are drawing my attention to the lines in-between the secret battle station and the Earth Plane. These fine, fine, like billions of filaments coming through this intersecting station...is that how it works? Joyelle – Yes. IB says, feel these lines in-between the Earth Plane and the battle station. It's just very full – the lines are being

used. Joyelle – Yes. They generate an energy field around it, because it's very much in use. Why are some of these lines squiggly? Joyelle – Because not in use as of yet. There is all sorts of cross communication. I believe these squiggly lines that aren't in use are in some way to intersect with communication with the global network of OC. Joyelle – Yes. That's part of the up and down communication. So now they are showing in a different colour, like very bright white and and silver rim that would be the network, the global Network of Communication for OC. Joyelle - Yes. This IB sounds like she said that it isn't completely active yet. Joyelle-Yes. And they are going to be activating it today? Joyelle – Yes. Now they are powering it up. They did this several classes ago in the Cognitive class where they got this big generator sound like being powered up, and now it's for OC, True OC. And it's feels like something that has been inactive for a very long time, and now it's just powering up and so they're making that mmmmmm sound that a start up of machinery would make.

So, IB says that it's time for OC to awaken now. She is saying that will give them a jolt. Remember IB says, everything comes from the Divine – Divine beings, including IB's, and then it's transferred, and sent down through OC. Remember that chain of communication, chain of command. It's just creating a big, buzz around the Earth Plane. It's like if you could feel it, it's like you're in the middle of this big energy transfer taking place.

Darkness Advances Towards the Earth Plane

IB says, We want to talk to you more about what's taking place. When Darkness comes – she says remind people, that in the other classes they were told that the movement of the armada of Darkness has commenced. They are making their way towards the Earth Plane, and this is specifically from the eye of Darkness, that this Darkness is coming, this armada is coming. So they've initiated their march toward the Earth Plane. We were told yesterday that takes roughly about a month for them to get here, hence the date of November 26th. And just to catch some of you up, the November 26th day is because – it is so that the armada of Darkness comes to a certain point, but not too close to the Earth Plane.

So then the battle plans can be started. They are showing me an image of special IB's who travel very far and are stealthily to this armada, and how one of their strategies is to cut off the energy line from the eye of Darkness. So I don't know if they've commenced that yet, but they're showing me how they're in place to do this, to start this. Joyelle – Not yet. But it seems like the special IB that is there is indicating that this is one of the first thing they need to do. Joyelle- Yes. And they are saying that this will begin the dropping off of some of the armada, as they become disabled from the energy line from the Eye of Darkness.

Darkness Flawed

Now this IB out by the armada still wants me to look at something out by the energy lines. They're showing me something near the tail, near the tail of the armada, there

are these contrails of energy lines. They're showing me something at the end of where the trail of energy lines leave off. Joyelle – Look at the way that they will disconnect it. That's what they're showing. So what they're showing then is there's like, this is where connecting points are. Like they're almost like couplings. Joyelle-Yes. So there's strategic points where they will disconnect. Joyelle – Yes.

So it feels like Darkness has reinforced where those connective points are. Joyelle – Yes, very much so. It almost feels like where the connector points of the energy lines of the Darkness' armada have been retrofitted, like they are reinforced but it's like something new they've done. Joyelle says, Yes, they are new connections, but look at them - they are very flawed. Joyelle - And it will be easy for them to disconnect them. That's right, it feels like they are very strong, but almost like if you could hit them in the right way they would come apart. Joyelle – Yes. It's like...Joyelle – brittle, they are not flexible. If I get too close to one of them, I can feel its icky energy. Joyelle – yes.

Breaking the Rhythm of Darkness

Now, one of the special IB's by the armada is bringing me back so I can still see from a distance, the armada itself. They're just showing the armada and how it can its in lockstep with one another, and the sense of it is like it's almost like they are marching in step with one another. Joyelle – this stepping with them will be distorted by Us to have Darkness confused. When we interfere with this rhythm, it will be very disorientating for Darkness. IB is saying, Their mechanical nature makes them vulnerable.

Darkness' Infiltration of the Earth Plane

Is this imagery of my own making, or is it coming up for a reason? Joyelle – first of all, not of own making, we are showing you. It's like they are superimposing the imagery of the armada with one of Hitler's soldiers – mechanical, mean, narrow. Joyelle – Yes. IB is saying that Darkness infiltrated the one you called Hitler. And he became a servant to Darkness. And they are showing me what he actually looked like, and how infiltrated he was. Do I need to say this? Joyelle – Yes. So I'm not sure about the degree to this, so maybe we can ask for clarification, but IB is saying, he became Darkness itself. Am I hearing this correctly? Joyelle – Yes. He was no longer, he wasn't human. Joyelle – When Darkness infiltrates the soul part, then no longer human, and OC became Darkness. They have shown me how to look within a person, and they're showing me is that through and through, there's Darkness. So IB is saying, so what we're doing, we will ward off this from taking place, ever again, in the history of mankind. This is imperative in order for us to grow and evolve as OC.

There are many terrible things happening on the Earth Plane today. And in time we will need to stem the terrible atrocities that are taking place across the Earth Plane. There are currently concentrated places of Darkness, where Darkness resides, and there has been deep infiltration. IB says, you know of these places. You know there is something deeply wrong in them. Take the Congo for example, or different areas

where – , they are talking about Africa or Somalia, where there is genocide and other atrocities that take place.

Heart of Darkness

She's going back to the Congo and saying this is the heart of Darkness on the Earth Plane, and it will be very, very, important for us to dismantle Darkness in the Congo. Darkness knows that there is something up. They know there are pockets of resistance. But IB says, We've been very careful in the information we have been sharing with you to date. So there was no infiltration. And they don't completely understand what we do anyways. There's a sense from Darkness that what we are doing sometimes will get to combat them, go against them, resist them, etc., but they don't completely understand the intricacies. And they're showing me this big mate of Darkness on the Earth Plane. So the mate is the Eye of Darkness. IB says, This is very real folks.

The Eye of Darkness planted its mate here to begin overtaking the Earth Plane from the ground level. It has been very successful in doing this because it's had its way, like its free run here and in many adjacent areas. Where there is much strife and conflict, there is much Darkness. For then, people do not turn toward the Divine for their solutions, but instead turn against one another. The more conflict and strife that Darkness can arouse, they know that generates more form in people. The more extreme the emotions like violence, contracting, then the more form there is. The more form there is, the more they can attract Darkness. So when ego is really hard like reinforced in itself, then that's where Darkness gets to come. And they are showing me the energy lines to the Congo area and adjacent, and how thick it is there, and that's where they are depositing lots of Darkness, more new Darkness all the time.

Non-Form Reality

And they are showing how from this area Darkness gains a foothold, and then it has its own like territory that it claims for itself, and then they're showing how it exports itself across to other nations. Everywhere again she's saying, everywhere where there is strife and conflict, there is much Darkness. Everywhere where people are suppressed, and held against their own will, confined, restricted, unable to express themselves, these are all areas heavily influenced by Darkness. It may be chilling to some of you but know that what you are all doing is making a very big impact on the Earth Plane.

Importance of Outer Consciousness' Participation

In order for this battle in Non-Form reality to succeed, it was an imperative that OC become involved. So that whole line from Non-Form Reality to all of us in the Divine Realm, all the way to OC – we would be missing a whole layer of our existence if we could not reach OC in this manner, to know about the battle, preparation, what we are doing, evolution into higher consciousness. All this was very critical. OC needed to be involved, so the people here and in the other classes were the starting point. This

starting point helped open the door for the necessity of the global network for OC to come into being, and that's why that is coming into play now.

They are saying again OC will be awoken on the Earth Plane. And so what happens with that global Network of Communication where that little fuzz all around the rim, where there's silver static lines all around the Earth Plane, that's growing. When they started the global Network of OC – it was really thin, now it's wider. The rim is wider around the Earth Plane. And that's how quickly communication travels, or how immediate this can take place.

So IB is saying there are other initiatives taking place in Truth. Those that are in Truth are starting a chain reaction of events across the Earth Plane, and we laud you for taking part, for wanting to be in Truth, for taking part in the classes. We know it's hard for OC if they can't see in a way that Pearl does, but trust her, she says, She can't be making this all up, and it touches somewhere deep inside you, and that's Us. So we are your backing for what is True. We will show you all that is True. She saying, Information and knowledge will now come in a flurry, like it's accelerated. Joyelle agrees. So the sense is that we are going to get more communication laterally amongst OC. It will again be transferred from us, IB's from the Divine, but also amongst True OC.

The Buddha Mind

IB says, Satsang is changing. It started today. You are doing something different in Satsang. Joyelle – Yes. You are being connected in Satsang to the Buddha Mind, to Nothingness. And those connections like synapses, are coming into play, like becoming real now. Joyelle – Yes. The hub of communication for OC, IS in our Satsang. Joyelle – Yes. IB says, come to Satsang and you will experience Buddha mind. IB says, You were kind of there before, but now you are really going to be in it. Joyelle – Yes. What are all those little things, are they like synapses? Joyelle – they're like connecting points - all OC's to the Buddha Mind. It will happen.

They're just showing me how the Buddha Mind functions. Can Joyelle explain what's being shown, it just feels like I'm in a big brain, and it's very clear. It's like Nothing but Everything at once. Joyelle – Yes, this IS the Buddha Mind. It's so dense and concentrated though, it's so full. Almost like you blink and you will miss a trillion bytes of information. Joyelle says, Call up Everything and Nothing at the same time. IB says, you're inside it now – most of you just don't know this. So now they are showing me the Earth Plane and how the connectors are being connected. Joyelle – Yes. So I think our big focus for today was communication. Energy as communication. IB waved good-bye.

Joyelle what would you say about this? Joyelle – we recommend that we are all done.

Questions and Answers:

I have a question about IB. I think my IB is here and I feel that my IB was at the hub. So my IB can be in more than one place?

Joyelle: We recommend that you always have this Divine connection. So your experience is correct.

How about, I have a sense of my IB. I wasn't here yesterday at last night's class but I did the remote. But I also had this agitation because I was at home and maybe not part of the collective, but I also had this real flash of heat that I didn't know what that meant. And sometimes my IB wants – I bring my IB to Satsang to these healings, but I don't feel connected because I don't want my ego to take credit for what we're doing here.

Joyelle: We recommend stay connected to her. Do not consider ego. It is most important to stay connected.

Sometimes I have this remorse and my mind keeps going on, all these thoughts coming together and it's just weird. Is this also called agitation and is that something that has to be removed?

Joyelle: Put them into the power ball. This is anxiety.

Do I put them into the power ball myself or ask for clearing?

Joyelle: We recommend that if you use your power ball, it will lessen the anxiety. And when you are here, you can ask us for help.

Joyelle: we will remove all of your anxiety. But remember when you leave though, put them into the power ball. This is why they gave it to you - for this reason.

There's a part of me that doesn't connect with what is happening.

Joyelle: We recommend that your True part does.

So what about this other part?

Joyelle: We recommend that this is ego. And we recommend that, put these feelings into your power ball.

When you talk about the planet and the healing of the planet, what happens more locally in terms of reactions within our own families and our own person?

Joyelle: On a personal level, more anxiety. Use your power ball, and this will clear them. And do not let it (anxiety) go on too long before you use the power ball. So use it as soon as you recognize your anxiety.

Joyelle: We have given you many tools to use, and now is the time to employ them.

Pearl:

I think what you need to understand is that she always asks people, *Heal yourself first*. And then in the midst of that heal yourself first, she always says to people or what I've

understood in my journey in Truth, is that they give you a Powerball and you use it 10% or 20 or 30, then you're not maximizing. It's like they give you an offering, and then you go, well how about if I just do this (instead), and so you kind of, but not full-out, do (what they ask).

One of the very important lessons I've learned in my journey is that they gave me this little bit of something. If I haven't figured out how to use that little bit of something completely, wholly with all my heart, and to the maximum effect, the next thing will not open up. That's why you see me rush. I feel like I'm rushing all the time, to fulfill every increment, every inch, every millimeter, of what they've asked me to do. Just everything that they ask you to – Do. Because you don't realize what they have asked.

If you don't fulfill that little bit that they ask of you, you just keep learning again and again until you get that little bit that they've asked you to do. It's very, very important that you listen to that, instead of wanting something else. Fulfill that little bit they ask of you, and that reaps what I find, tremendous rewards because they will open the door to something else. They are actually leading you on a path. On the path that really shows you what's next. But until you fulfill that step, completely fulfill the step that they asked of you, the rest won't transpire yet because you haven't prepared. The step is always the step before, that actually lends to the next step. That's how I find it.

Joyelle: And this wanting that you speak of is the wanting to do no work.

Questioner asks to be shown how to use the power ball again

Joyelle: Just use it

I want instructions about how you have to connect, and if you don't do it right, then it don't work and it's very discouraging. Am I heavy or not, and this is not even working because I haven't used it right....

Joyelle: We recommend that if you connect to your IB and give your thoughts to your power ball – If you feel that it does not work then look at your belief, your faith in it. We recommend that, do your work until you *know* that it works, then your faith will be restored.

Pearl:

Okay, I know it sounds kind of mundane to just go, *be in flow*. That actually takes a lot of discipline to stay in flow. I know you've experienced flow in Satsang or on your own. My journey has been different from most of you in a sense that what happened is that for 10 years, that's all They wanted me to do is what I show a few of you during Satsang. We touch the pain. We go to the pain and empty. So for 10 years I've been emptying. And then from emptying, then there's always the two, right? There's the elimination of Untruth – the emptying, and then there's the rebuild in Truth. So they empty, empty, empty for 10 – 12 years or so, and then I started. But in that emptying I

knew flow. I knew it was my way home. It was my *out* from this place, of pain and suffering.

So everything that would run counter to being in flow, then I'd learn to give up, or else I'd go out of flow. That was how simple it was for me because I emptied for so long, and I learned to be in flow, and everything else that wasn't in flow was ego. So then that was the complete equation. So the emptying, being relieved of Untruth, so that I could really know the True me in flow. Meanwhile there became a greater separation between what was True in flow, and what was not true in ego. So, that's how simple it is. Stay with your work. Be in flow. I don't envy with you, however, are those that are doing both at the same time. I had the big time frame from which to simply empty, but that took a lot of sacrifice. It took a lot of sacrifice to dedicate that much to emptying. So for you, when you come to Satsang, and you're being emptied at the same time you're doing the root balls. So you've got both happening at the same time – the elimination of Untruth and the rebuild.

And I don't know how much that is taking place, but that's why I think there is some confusion there, because all I did was, I want to be in flow as much as I can, and then Joyelle told me that flow 100% of the time, is your next step. So then I knew I was completely on the right track. But that's how, because I would dedicate myself to that and I would give up everything. Everything. Every way of doing that took me out of flow. And I had to really look and examine what it was that was taking me out of flow. Including all activities, relationships, and all things like that?

Pearl: Everything, everything, everything.

Thank You.

What would you say to the people that have feet in both worlds so to speak?

Joyelle: We recommend that the path is before you. You can walk quickly or walk slowly. It is your choice. And we give you these gifts so that you can do both. So that you can do both – live in your reality until you can change it, and to connect to the Divine until you choose only to be on your path.

My question is when you have this gift to come here and my IB has this incredible learning to be a part of....and part of me goes well, it's such an honor that part of me, the Divine part of me wants to help, but I feel sometimes that the little me, is not worthy of all this and can't seem to connect with the greatness of what we're learning and the smallness of my day to day stuff, so if the power ball is the key for my small me, then Thank You to simplify it.

Pearl:

As far as I'm concerned, like when I was at work, it's like if you can make that big switch inside, because that's what I did different from most people, from the beginning. I could feel the Divine beings talking to me – the Angels. I couldn't stand the pressure of them telling me to surrender, so I said, Okay, I'll give it All. I'll just give it All. So

that's what I did. I didn't give chunks like a lot of people do. I just said okay, you can have my life. I actually said those words out loud at the dining table in my first home. I said those words out loud, because I knew that's what it took.

Pearl:

And then everything of the world comes in under the backdrop of Truth, of even the true desire, to be in Truth. How many times have you been given advice and you didn't want to follow or, kind of following. Or even after 6 months or a year, you're still not, not wanting. Many of us fall into that category. And it shows you where you're at. It shows you the degree of sacrifice that one is willing to take. And that's just your choice. You want to walk quickly or slowly. But I think it's harder your way. It's harder when we don't surrender all. Because everything then comes right under what is true. Your priorities are still down there. And then the things you still have to take care of, are just seen in a different light. It's just the easy way. It seems like it's too big to give that much, but this is actually the easier way rather than reverting back to your (old) self. That's the hard way I find, watching people.

Now do you feel someone who surrenders to that degree, that then all of a sudden you find all support you need and it's like what you thought was the reality of the world was an illusion and all of a sudden you have clarity to see what is actually the Truth because the Divine stepped in and provided that?

Pearl: Yes, for sure. But you also discover that, that'll be the case until you run into your ego again. Cause there's just so much, so much of it to walk through. And then you surrender again?

Pearl: Yes, and then just knowing that, well, that you've made that commitment already, makes it easier. And then it's not just another hurdle that you have to walk over again.

Joyelle: When you surrender to that degree, we are here for you and then the illusion changes.

Thank you both for sharing.

Just a comment about surrender. I asked another guy how often is it that you surrender? And he said as often as you take a breath.

We closed the evening session with words of gratitude to the Divine.
